## Features

### Operational Functionality

The dimmer operates as an on/off switch when touched for less than 5 seconds. To activate the dimming functionality, touch duration should be more than 5 seconds.

### Dimming

The touch dimmer provides for dimming functionality of 100~1% (dependent on the driver and LED source).

### Compatibility

The LED touch dimmer can be used with all 24V DC LED tape and strip lights equipped with a 2.1 DC Jack.

### Power Input

The LED touch dimmer accommodates all 24V LED drivers equipped with a 2.1 DC Jack. Not for use with dimmable drivers.

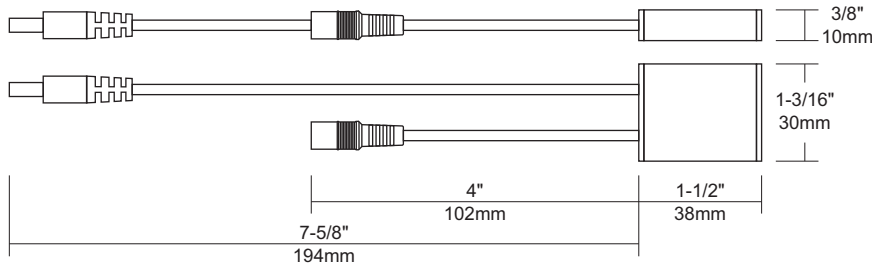

### Power Load

24V LED tape and strip lights can be attached to the LED touch dimmer with a maximum load of 72 watt.

## Description

The LED touch dimmer uses a touch technique allowing it to function as an on/off switch and a dimmer. Used to dim 24V DC LED tape and strip lights.

**Notes:** Accessories should be ordered separately. For additional options please consult your Liteline representative. Due to our continued efforts to improve our products, product specifications are subject to change without notice.
