- (1) Colour changing controller
- (1) Wireless colour changing remote control (battery included)

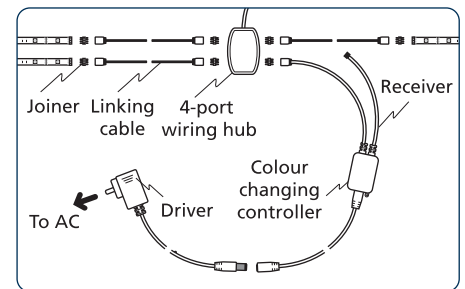

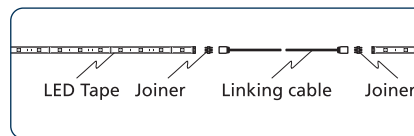

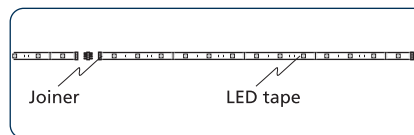

APPLICATIONS

Excellent for task and accent lighting in kitchen cabinets, coves, furniture, backlighting and many other applications.

FEATURES & BENEFITS

- An energy efficient light source that is tiny enough to fit into small spaces, or easy to conceal.
- LED lighting is cool to touch. It is one of the most energy efficient sources of light available today.
- LED contains no mercury and does not produce harmful ultraviolet (UV) rays.
- The linear light source provides contour and even light distribution.
- The light source is dimmable with the wireless remote control
- The LED technology is powered by a power supply (driver) which plugs into a standard 120 volt AC outlet. Low-voltage power is supplied to fixture making it a safe and efficient light source.
- Flexible LED tape with 3M® adhesive backing
- Cuttable every 4"
- Ambient operating temperature: -40°C – 60°C (-40°F – 140°F)
