

LED T8

LED T8

SWITCH FROM FLUORESCENT T8 LIGHTING TO
PLUG N PLAY **LED T8**

Our Nano-material, shatter proof T8 LED Tubelights are the next generation solution to replace conventional fluorescent lighting. They offer a more reliable solution along with much greater efficiency. With payback periods ranging from 6 months – 1 year, the time to replace your existing lights is now.

FEATURES

1. Electronic Ballast compatible
2. Energy savings upto 45% compared to traditional T8 Fluorescent products
3. Environmentally friendly; mercury free
4. High lumen efficiency & high CRI
5. Compatible with over 90% electronic T8 instant-start ballasts
6. 50,000 life hours
7. Virtually no UV rays or IR emissions
8. Instant on, without a flicker or buzz
9. Eliminating the need for rewiring; allowing the fixture to maintain original UL compliance
10. UL & DLC listed
11. 5-years warranty

APPLICATIONS

1. Parking Garages
2. Stairwells
3. Offices
4. Retail stores
5. Commercial Properties
